JOIN OUR ASTROPHYSICS GROUP TO WORK ON EXPLODING STARS IN AUSTRALIA'S CAPITAL CITY, CANBERRA!

Combine a great education in the lives and deaths of stars with everything Australia has to offer: lovely beaches, amazing wildlife, and great work-life balance!

- Australian PhD is 3.5 years, can be started any time of year and contains no formal coursework.
- Scholarships of \$35,000 per year for each of the 3.5 years (+ travel funds) are available for domestic and international applicants with high academic standing.
- Masters and PhD students in our Astrophysics Group have access to world-class telescope and computational facilities.
